

MOBILE DETERRENCE MONITORING BOX

Introducing the **DETBOX**, our supervised mobile deterrent unit - a robust security solution designed for maximum protection. This system features a powerful 12W siren, red and blue strobe lights and versatile connectivity options, including support for optional 4G/5G routers. Easy to install, with pole or wall mounting options, our mobile box offers a user-friendly interface, making it an ideal choice for a wide range of security applications, such as site supervision, dealerships, parking lots and more.
