

AHD/TVI/CVBS TO HDMI CONVERTER

VIDEO ADAPTER CONVERTS TVI/AHD/CVBS TO HDMI

SELECTABLE RESOLUTION

HDMI output supports 1080p or 720p at 60Hz, letting you adjust to your display needs.

AUTO RESOLUTION RECOGNITION

Automatically detects input resolution for hassle-free setup:

TVI & AHD Input: Supports 720p, 1080p, 3MP, 4MP, 5MP, 8MP

CVI Input (Black & White Only): Supports 720p, 1080p, 4MP, 8MP

CVBS Input: Standard definition compatibility

HD LOSSLESS CONVERSION

Advanced video processing delivers lossless image quality, preserving brightness, contrast, and color for sharp and vibrant visuals.

LONG TRANSMISSION DISTANCE

Stable coaxial cable transmission up to 500–700m (546–765 yards), depending on resolution.

The **AIOHDMI-CONV** Universal Video to HDMI Converter is a versatile solution that converts TVI, CVI, AHD, and CVBS signals into crisp 720p/1080p HDMI output for modern displays. Designed for surveillance and monitoring systems, it features a BNC video loop-out port for multiple monitor connections, advanced lossless video processing for sharp and vibrant images, and auto resolution recognition for easy setup. Supporting TVI/AHD up to 8MP, CVI in black & white only, and standard CVBS, it also delivers reliable long-distance coaxial transmission up to 700m, ensuring clear, stable performance in professional installations.
